

ECO-LABELLING POLICY

At **Cohizon Life Sciences Limited**, we are committed to promoting sustainable products and services through the use of eco-labelling initiatives. Eco-labelling provides consumers with clear and credible information about the environmental performance of products, enabling them to make informed choices.

We are committed to:

- **Eco-Labelling Adoption:**
 - Identify and pursue relevant eco-labelling certifications for our products and services.
 - Collaborate with eco-labelling organisations to ensure compliance with their standards and criteria.
- **Enhance Environmental Performance:**
 - Implement eco-labels that meet stringent environmental criteria.
 - Ensure that our products are designed, manufactured, and disposed of in an environmentally responsible manner
- **Product Assessment:**
 - Conduct life cycle assessments of our products to identify environmental impacts and opportunities for improvement.
 - Prioritize eco-labelling for products with significant environmental benefits.
- **Sustainable Design:**
 - Incorporate sustainable design principles into product development to reduce environmental footprint.
 - Use environmentally friendly materials and processes whenever possible.
- **Supply Chain Engagement:**
 - Encourage suppliers to adopt eco-labelling practices and implement sustainable sourcing strategies.
 - Collaborate with suppliers to develop eco-labelled products or components.
- **Stakeholder Engagement:**
 - Engage with stakeholders, including customers, suppliers, and regulatory bodies, to promote the benefits of eco-labelling.

- Educate and raise awareness among consumers about the importance of eco-labels and sustainable purchasing decisions.
- **Transparency and Accountability:**
 - Provide clear and accurate information about the environmental impact of our products.
 - Maintain transparency in our eco-labelling processes and criteria.
 - Provide transparent information about the eco-labelling certifications obtained and the criteria met.

Governance and Implementation:

- Develop clear, measurable environmental and social criteria for our eco-labels, ensuring they are attainable, verifiable, and transparent.
- Partner with recognised certification bodies to validate our eco-labels and ensure compliance with international standards.
- Establish a robust monitoring and reporting system to track the performance of our eco-labelled products and identify areas for improvement.
- Provide training for employees on eco-labelling standards and practices and conduct awareness campaigns to inform consumers about our eco-labelled products.
- Allocate necessary resources for eco-labelling activities, including staff, budget, and expertise.
- This policy will be reviewed annually to ensure its effectiveness and alignment with our sustainability goals.

This policy applies to all Cohizon Life Sciences Limited operations, including research and development, product manufacturing, distribution, sales, and supply chain activities, across all locations.
